Chick Sales Policy! (Chick Refers to live baby Poultry)

- We make every effort to provide healthy chicks to our customers. Once chicks leave the store, customer assumes full responsibility. Chicks are non-returnable or refundable. We do reserve the right to delay chicks' availability in order to evaluate them before releasing them if need arises. The facilities that provide our chicks are from Avian Flu Clean Certified hatcheries.
- Please note: While we do sell some poultry straight run (both male & female) The layers we offer are pullets (female only) and sexed by the hatchery prior to shipping. According to the hatchery, there can be an error rate of up to 10%. In the rare occurrence that the error rate exceeds 10%, we and/or the hatchery will refund the purchase price of the chicks that exceeded the 10%.
- Special Orders: We are happy to accommodate special requests. Pricing depends on availability and quantity. We can order individual Rooster chicks as well.
- Vaccine Information: Cornish Cross chicks come automatically vaccinated. All other poultry is only vaccinated upon request and is an additional cost. We also have options for unvaccinated meat birds, slower growing and Red broilers. • Chicks that are vaccinated should not be feed medicated chick starter.

*****Due to the high demand - Reservations not picked up by Tuesday will be made available*****
